

Gem of a service

Grandma left you a brooch studded with exquisite gems but you think it's too outdated (and *obiang!*) to wear... You've been eyeing a watch that's exactly

what you've been looking for, except for one tiny detail - you prefer the face in another colour...

You can bring the piece of jewellery or watch to Eric Ong of Bonfield Traders to be redesigned. Swiss-trained Eric can customise any detailing in such accessories, and even create exclusive designs to suit your liking. He also specialises in restoring and repairing jewellery and luxury watches.

So if you want to get your well-worn Rolex looking as good as gold again, or can't wait to show off Grandma's heirloom, call Eric at 471-0518.
